PROFESSIONAL SUMMARY

Computer Science & Engineering student with a strong interest in software development and problem-solving. Familiar with Java, Python, HTML, CSS, JavaScript, MySQL, and Git, with hands-on experience in developing academic projects. Currently strengthening Java, Data Structures and Algorithms, and core computer science concepts while seeking opportunities to apply technical skills in real-world software development.

TECHNICAL SKILLS

Languages: Java, C, Python

Web Technologies: HTML, CSS, JavaScript, Flask

Databases: MySQL, SQL

Libraries/Frameworks: Pandas, NumPy, Scikit-learn

Tools: Git, GitHub, VS Code

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning

PROJECTS

AI Interview Assistant | *Python, Flask, Gemini AI, HTML, CSS, JavaScript*

- Developed an AI-powered interview preparation platform using Gemini AI to simulate technical and HR interviews.
- Implemented personalized interview question generation based on candidates' resumes and job descriptions.
- Built a mock interview system that evaluates user responses using AI and provides detailed feedback.
- Generated performance scores and actionable improvement suggestions to strengthen technical, communication, and problem-solving skills.
- Deployed on **Render** and managed source code using **GitHub**

Automated Loan Approval Prediction System | *Python, Pandas, Scikit-learn, Flask*

- Built an end-to-end machine learning classification pipeline to predict loan eligibility using Python, Pandas, and Scikit-learn.
- Designed and deployed a REST API with Flask on Render to serve real-time loan eligibility predictions.
- Applied feature engineering and systematic model evaluation, achieving approximately 80% prediction accuracy.
- Deployed on **Render** and managed source code using **GitHub**

EDUCATION

B. Tech CSE | GNITC | CGPA: 8.85 | 2023–2027

Intermediate | 98.5%

SSC | 98%

CERTIFICATIONS & ACHIEVEMENTS

- Hack Arena– National Hackathon (Level 2): Recognized for presenting a remarkable idea under the Open Innovation theme.

SOFT SKILLS

- Problem Solving • Team Collaboration • Effective Communication
