SANIYA BEGUM

Kollapur, Telangana | +91 8639692635 | saniyabegum.tech@gmail.com
Portfolio | GitHub | LinkedIn | HackerRank

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in full-stack development and AI-powered applications. Skilled in Java, Spring Boot, Python, Flask, JavaScript, MySQL, REST APIs, and Git/GitHub. Built projects involving AI-based job matching, interview assistance, and machine learning. Seeking software development opportunities to apply problem-solving skills and build scalable applications.

EDUCATION

B. Tech CSE | GNITC | CGPA: 8.85 | 2023–2027
Intermediate | 98.5%
SSC | 98%

TECHNICAL SKILLS

Languages: Java, C, Python

Web Technologies: HTML, CSS, JavaScript, React.js

Databases: MySQL

Frameworks & Backend: Spring Boot, Flask, Spring Data JPA, Node.js, Express.js

Tools: Git, GitHub, Postman, MySQL Workbench, VS Code

Core Concepts: Object-Oriented Programming (OOP), REST APIs, Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks

AI/ML: Machine Learning, Gemini AI

Security: JWT Authentication, Role-Based Access Control

PROJECTS

AI Job Portal | GitHub | Live Demo

Java, Spring Boot, MySQL, Gemini AI, JWT

- Developed a full-stack AI-powered job portal with Student/Recruiter authentication, job posting, job search, applications, and application tracking.
- Built secure RESTful APIs using Spring Boot with JWT authentication and role-based access control.
- Integrated MySQL with Spring Data JPA to manage users, jobs, applications, and related data efficiently.
- Integrated Gemini AI for resume–job matching and skill-gap analysis, helping candidates identify suitable job opportunities and improve their skills.

AI Interview Assistant | GitHub | Live Demo

Python, Flask, Gemini AI, HTML, CSS, JavaScript

- Developed an AI-powered interview preparation platform using Gemini AI to simulate technical and HR interviews.
- Implemented personalized interview question generation based on candidates' resumes and target job descriptions.
- Built an AI-driven evaluation system that analyzes user responses, generates performance scores, and provides personalized improvement suggestions.
- Deployed the application on Render and managed version control using GitHub.

Automated Loan Approval Prediction System | GitHub | Live Demo

Python, Pandas, Scikit-learn, Flask

- Built an end-to-end machine learning application to predict loan eligibility using Python, Pandas, and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Achieved approximately **80% prediction accuracy** using a Decision Tree Classifier.
- Developed and deployed a Flask web application on Render for real-time loan eligibility prediction and managed the project using GitHub.

CERTIFICATIONS & ACHIEVEMENTS

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle
- **HackerRank SQL (Basic) Certificate** – HackerRank
- **Hack Arena – 2nd National Level Hackathon** – IEEE Student Branch, Guru Nanak Institutions (2024)

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Effective Communication
